🇯🇵 ペットボトル対応ドリンクチューブ

🇫🇷 Tuyau pour boire d'une bouteille

🇪🇸 Tubo para beber de la botella

🇮🇹 Tubo per bere dalla bottiglia

🇳🇱 Drinkslang voor flessen

SmarTube® product line is a novel, no-nonsense, make-sense active hydration concept by **BlueDesert®**. The many years of experience of the **BlueDesert®** team in design, development and production of outdoor and travel gear have taught us the importance of providing the right solutions to the customers' needs and this is the premise of the **SmarTube®** line.

A growing awareness of the importance of hydration during physical activities calls for efficient, readily accessible and cost effective hydration solutions. Focused on real needs and priorities of hikers, bikers and outdoor activity participants, **SmarTube®** product line spares purchasing of expensive bladder based hydration gear, inherently involving dirt accumulation, bacteria accumulation, inconvenient cleaning and maintenance concerns. Unlike hydration bladders available only at specialty stores, water bottles are available at any store and **SmarTube®** turns them into hydration system in no time.

SmarTube® is a simple, reliable, and cost effective hydration accessory line that transforms almost any drinking bottle - from standard water and beverage bottles, through specialty outdoor bottles like Gatorade®, Powerade®, SIGG® and Nalgene®, through bike bottles and standard canteens - into on-the-move, hands-free hydration system. There's no need to fill, rinse and dry bladders after use, or clean them before use. Simply take a mineral water bottle, connect the **SmarTube®** and you are ready to go!

SmarTube® uses the highest quality components that last. A top quality drinking tube fits most common outdoor and biking aluminum bottles using a revolutionary, worldwide patent pending, universal, one-size-fits-all **MultiCap™** bottle closure. The same tube may also be used with the unique new, worldwide patent pending, **H2bike™** drinking system for bikers, making active drinking user friendly, hassle free and a fun experience.

Being safe, hygienic, cost effective and sensible, **SmarTube®** is a hydration concept that makes hands-free hydration accessible to everyone.

Don't forget your SmarTube® to keep you high but not dry™...

A NEW HYDRATION SYSTEM WITH SPECIAL CAPS, TUBE AND MOUTHPIECE - ALLOWS YOU A HYGENIC AND CONVENIENT DRINK FROM ANY STANDARD WATER BOTTLE DURING ACTIVITY

Instructions for Use:

Wash with water before use

1. Remove from packaging 2. You have the choice of alternative sized caps - choose the correct cap/adaptor for your bottle 3. Fit the height of the tube to the height of the bottle and insert 4. Be sure the SmarTube® cap is tightly closed 5. Put bottle upright in any pocket or holder 6. Bite on mouthpiece and suck water at the same time.

Cleaning Instructions:

SmarTube® may be washed and rinsed with warm water using liquid soap, soda bi-carbonate or denture cleaning tablets. Be sure to dry your SmarTube® before putting into storage.
